

# Make your own Rudolph

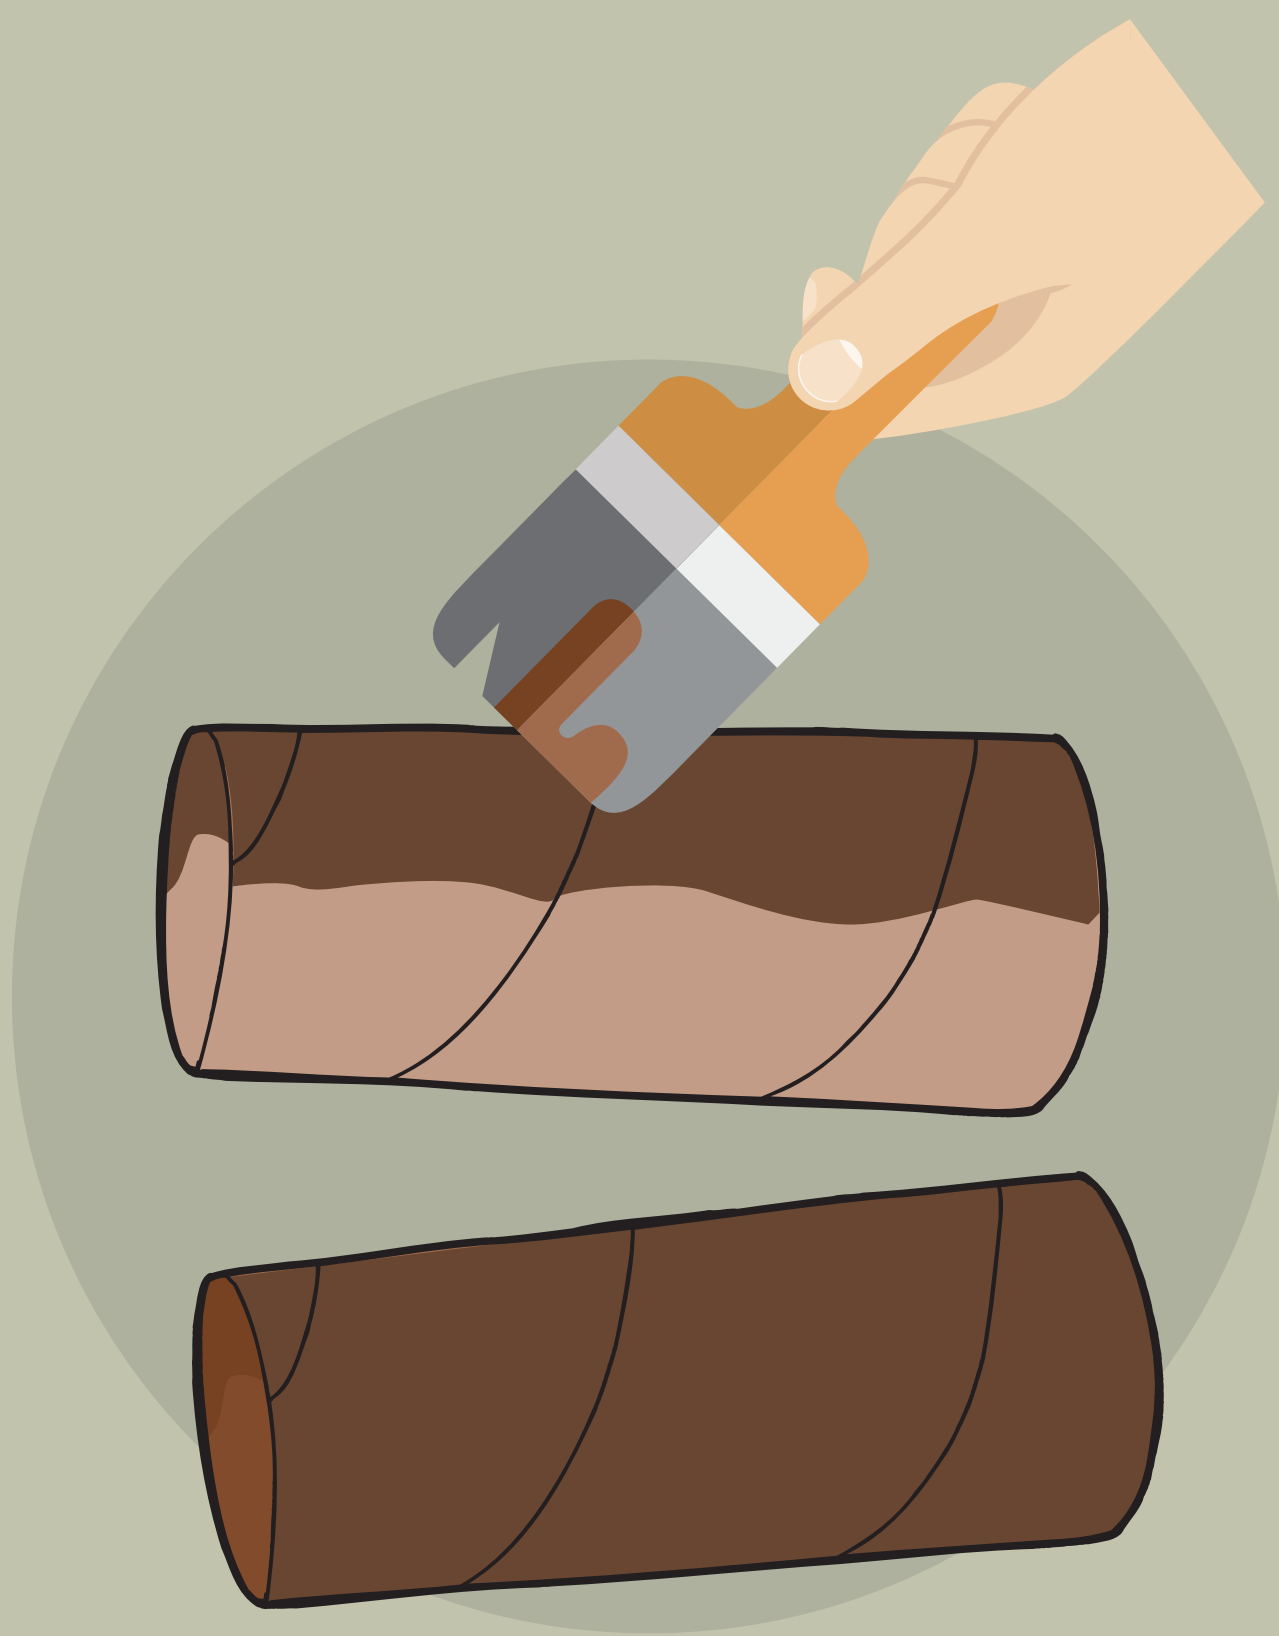

## What you will need:

- 1 whole toilet paper roll for the body
- 1 toilet paper roll cut in half for the head
- 4 sticks for the legs (about 8cm in length)
- 1 short stick for the neck (about 5 cm in length)
- 2 'Y' shape stick for the antlers
- 2 googly eyes
- 1 small red pompom
- Glue
- Brown paint

## Method:

**1** Paint the toilet paper rolls brown and leave to dry

**2** When dry, and with adult supervision, push 2 of the 'leg' sticks into the 'body' toilet paper roll at each end. This should make the body stand!

**3** Glue the googly eyes a little bit over the middle of the 'head' toilet paper roll. Glue the red pompom at the front of the toilet paper roll to make Rudolph's red nose!

**4** With adult supervision, push each Y-shaped stick into the 'head' toilet paper roll, at the opposite end to the nose, behind the eyes

**5** With adult supervision, insert one end of the last stick into the 'body' toilet paper roll, close to one pair of 'legs', so that most of it hangs out. Insert the other end into middle of the 'head' toilet paper roll so that both toilet paper rolls are connected!
